

EXECUTIVE SUMMARY

This “Thank God It’s Friday” (TGIF) programme empowers cell members to run an outreach event in sub-groups of preferably 2-3 members. It also empowers members to share their personal testimony and John 3:16 using a gift - a colored egg. The outreach programme is straightforward and simple, as any member will be able to run it without difficulty. The whole TGIF programme is segmented into three stages, namely PREPARATION, EMPOWERMENT and EXECUTION.

In the Preparation Stage, all the cell members will be equipped with the skill of writing and sharing their personal testimony. Cell members will also be equipped to share the gospel using the John 3:16 Presentation and to intercede for their prospective guests.

In the Empowerment Stage, the cell members will be divided into smaller sub-groups according to their group dynamics and the activities they would like to use as the platform for outreach. The cell members will practice sharing the message of Good Friday and their testimonies using the “Good Friday Gift” and will be taught how to use the “My Better Forever” blessing bookmark. Disciplined intercession will be encouraged at this point of time.

In the Execution Stage, ASK, PLAY, EXPLAIN, SALVATION (A.P.E.S) will be practiced. Pre-believers will be invited to join in the activity and the TGIF message will be explained, leading to the call for salvation.

In conclusion, this TGIF program will empower cell members to share with their friends about their encounter experiences with God and about their salvation story, and to run the programme as easily as going out with their pre-believer friends.
