EXODUS

Praise Party

After God did these amazing things and rescued them, the Israelites praised God and gave thanks to Him in worship. They were singing and dancing, because once they were slaves, but now they were free!

Go one round as a family and share thanksgiving, then turn on some praise music and have a praise party!

After that, go into a slower worship song, and allow your child to share something they need God's help and lead them in prayer. Listen to God together and be ready to hear what He has to say.
